

TIGER, TIGER, BURNING BRIGHT

See through the poet's eye... enter the forest... examine the words... hear the sounds of the night... study the symmetry...

Our unique Activstudio® software helps you bring lessons to life across a whole range of subjects. From math to music. From physical education to physics. From media studies to Mandarin.

Hundreds of teacher-designed tools help add interest and create mind maps or different ways of learning. Highlight, color, block out, reveal or increase the size of words.

Or summon protractors and on-screen measuring tools for math and sciences.

Over 15,000 flipcharts, images, backgrounds, shapes, annotations and activities are ready and waiting for you to pull up and use. (And save, tweak and re-use.)

Or you can easily create your own flipcharts from your PC or MAC. Plus, access free online resources already produced by teachers.

...Oh, and a search mechanism - by name, resource or keyword, including to networked devices and Flash files - to find what you want quickly and easily.

ACTIVSTUDIO.

AWARD WINNING LESSON DEVELOPMENT SOFTWARE

FOR THE ACTIVCLASSROOM.

COMPLETE WITH (FOR BOTH PC AND MAC)

Handwriting recognition Activstudio® recognizes your handwriting in 9 languages on your PC even with Office™ products and Inspiration™ (The Mac version uses OSX Inkwell).

Interactive teaching tools Protractor, ruler, compass, dice, clock, sound recorder, fraction maker, calculator and much more - provide a true teacher's toolkit.

Lesson capture Students don't have to miss a lesson again. Easily record your whole lesson as a digital video file with full sound for review or distribution on CD or online.

Fully integrated assessment Use the supplied question master and ad-hoc voting to build lessons with real formative assessment elements for use with our Activote handhelds.

Rich multimedia support Simply drag & drop existing content into your flipchart lessons, Office™ documents, PDFs, images, sounds, Flash animations & web links.

Searchable educational resources Thousands of specially designed images, diagrams and multimedia resources, banks of prepared lessons and access to more lessons online correlated to state standards.

Free extras Student Edition (PC only), upgrades and support. Online training, user forum and resource downloads from prometheanplanet.com

Import and Export Import files from Powerpoint or Smart Notebook™ and use our Activstudio to enrich them and make them interactive. Export flipcharts to Flash, PDF and your Activote® question results to Excel™ to keep up with your students' scores.

CHOOSE FROM

Free standards-aligned lessons available for download from prometheanplanet.com

Free online user forum to exchange best practices.

Training courses to suit your needs, including online, onsite and train-the-trainer packages.

AND ADD

Take a look at the other parts of our [Activclassroom...](#)

Activprimary® Our unique interactive software, created specifically for young learners, features a lively interface and resources tailored to the elementary classroom.

Activboard® Our market leading, full function interactive whiteboard provides 100% mouse functionality with our exclusive battery free Activpen®. USB, Serial, and Bluetooth™ connectivity right out of the box.

Activlate® Interact with the Activboard® with our wire-free 'mini-board', small enough and tough enough to pass around the class or allow the teacher the flexibility to move around the classroom while teaching.

Activote® Instant whole group feedback and assessment during instruction. Generate discussion or gather opinions or answers from every student. And our superior radio technology ensures that student answers can remain anonymous as no pointing to a receiver is required.

Activtablet™ Connected to your computer, it acts just like a small Activboard®. Great for drawing, designing lessons or tracing where you need to use a pen away from the Activboard®.

Activsupport A range of professional training programs to suit your needs from online to train-the-trainer.
