establish a plan

A good Professional Development plan ensures a successful transition.

Our manufacturer-certified instructors recommend a simple, but effective 3-step P.D. plan for the Promethean ActivClassroom (see below). Between steps, we suggest that teachers be allowed ample time to apply what they have learned in their own ActivClassroom before taking the next class/workshop in succession. If your school is including a student response system you will likely want to add one or two more classes. When needed, we will also gladly work with your team to design a custom P.D. plan for your school or district.

Recommended Professional Development plan for the Promethean ActivClassroom

Step

1

2-days Core Essentials Class (Part 1) and Companion Workshop

Schedule this step around the same time as the installation of the ActivClassroom technology.

Step

2

2-days Core Essentials Class (Part 2) and Companion Workshop

Schedule this step at least 1 month following Essentials Part 1.

Step

3

2-days Beyond Essentials Class and Companion Workshop

Schedule this step at least 3 months following Essentials Part 2.

Add a 4th class when needed for ActivExpressions, ActiVotes

enable teachers

Teachers quickly become effective and comfortable in their digital classrooms.

Professional Development ...

represents *the key element* in the implementation process that will allow your teachers to make a fast and successful transition to their digitally-rich 21st Century Classroom. With the Promethean ActivClassroom, even the most reluctant teachers will often become highly enthusiastic users by the time they complete our Core Essentials (Part 1) Class. Upon completion, teachers typically cannot wait to start applying their newly acquired knowledge and skills back in their own ActivClassroom.

If you talk to small and large districts with successful ActivClassroom implementations, they will tell you that it takes a well-planned, on-going P.D. process to maximize the impact on student achievement from your technology investment. The goal is to continually increase your teachers' level of proficiency and experience with the tools and software across their first year or two of using the technology.

Adopting any new curriculum or tools for classroom use requires additional training for educators, but these tools really require an on-going commitment on the part of the district, school and teachers to learn how to make best use of the technology.

— Bailey Mitchell,
Chief Technology and Information Officer
Forsyth County Schools, Georgia

Classes and Workshops for the Promethean ActivClassroom

As Promethean's largest training partner in the United States,
Logical Choice understands the importance of providing your ActivClassroom
teachers with the necessary skills for achieving exceptional results.

ActivInstruction: CORE ESSENTIALS CLASS, PART 1

Participants will learn how to use the fundamental tools of the Promethean ActivSoftware and to create basic flipchart lessons using your choice of ActivInspire or ActivStudio software. The instructor will show the way to access Promethean Planet, a teacher community of over 400,000 strong, and then how to tap its vast resources to impact student engagement and learning. Throughout this course, the participants will be shown effective strategies for beginning users that will increase student achievement.

Step-by-step, hands-on instruction with examples, for the following and more:

- Understanding the basic Tools (e.g., pen, highlighter, eraser, shape tool)
- Creating interactive flipchart lessons that are based upon state standards
- Exploring the Resource Browser to locate the vast collection of digital images, clipart, sounds, and activities to meet all curriculum needs
- Accessing online resources such as Promethean Planet and Promethean Learning to find state-aligned lessons, collaborate with teachers around the globe, and find tutorials and additional software help

ActivInstruction: CORE ESSENTIALS CLASS, PART 2

This class follows the Core Essentials Class, Part 1. The teacher has both practiced and internalized the techniques learned in Part 1 through its companion workshop and practical experience gained in the teacher's classroom. In Part 2, participants will gain more skills and enhance their knowledge and proficiency levels with ActivSoftware. The instructor will teach how to create key new activities and manipulate various flipchart objects, and then, integrate them into daily teaching for optimum student learning and engagement.

Step-by-step, hands-on instruction with examples, for the following and more:

- Using the 4 different layers in the ActivSoftware for lesson building
- Using colors to engage students
- Exploring more tools (e.g., Magic Ink, Connector Tool and Grid Designer)
- Utilizing grids— both teacher made and those from the Resource Browser
- Math and science tools (e.g., ruler, protractor, compass and calculator)
- Accessing resource packs through Promethean Planet to expand the Resource Browser with additional resources for lesson creation

ActivInstruction: BEYOND THE ESSENTIALS CLASS

This course, which follows Core Essentials Part 1 and 2, provides ongoing professional development to build teacher competence at an advanced level. Registrants should already be comfortable and practiced in teaching with ActivInspire or ActivStudio. Participants will learn the higher skills and tools, which are taught in this class, to create highly interactive lessons and activities to engage their students. Upon completion, the teacher will be ready to tap the full potential of instruction in the ActivClassroom.

Step-by-step, hands-on instruction with examples, for the following and more:

- Exploring the Property Browser to manipulate an object (e.g., color, size, translucency)
- Using the Action Browser to link documents, websites, and perform other various functions
- Integrating outside resources (e.g. Word, Excel, PowerPoint and the internet) with ActivInspire
- Creating activities using containers, restrictors, and action objects
- Integrating sounds, videos, and images to create dynamic, thorough lessons

For maximum benefit, we suggest these classes be followed by their Companion Workshop (see next page).

Deliverables: One day of classroom instruction and training materials.

Part Number: TRN-CE1

Part Number: TRN-CE2

Part Number: TRN-BTE

Price: \$1995 for up to 12 participants;
Up to 3 additional for \$100 each.

Price: \$1995 for up to 12 participants;
Up to 3 additional for \$100 each.

Price: \$1995 for up to 12 participants;
Up to 3 additional for \$100 each.

Extra Manuals:

Promethean Core Essentials manual - \$20 each • Promethean Beyond the Essentials manual - \$20 each
Bundle of both manuals - \$35 each

We offer 3 classes of increasing complexity - each with its own companion hands-on workshop - all designed to help you achieve outstanding results with your new ActivBoard and software. For ActivExpression and ActiVotes, there are separate classes to learn how to get the most out of these important student response devices that are used to promote student engagement, formative and summative assessment and interactivity. **Our programs contain proven, successful methods for consistently delivering high quality instruction with measurable results.** Our 1-day classes and optional 2nd day companion workshops may be conducted at your school or district, or at the Logical Choice training facilities in Georgia, New York and Southern California.

Companion Workshops: PRACTICE DAY TO FOLLOW EACH "ESSENTIALS" CLASS

A Companion Workshop is designed to immediately follow each of the 3 "Essentials" classes. Under the supervision of their instructor, workshop participants are allowed extra time to practice the new techniques they just learned. This valuable one-on-one time provides more opportunity for personalized coaching and for discussion of individual classroom issues. Participants also collaborate with their colleagues in a lab setting, creating flipcharts, sharing ideas and resources. With a workshop, class graduates are better able to internalize and apply newly learned concepts in their own classrooms.

Companion Workshops include:

- Try-out techniques learned in prior day's class
- Create practice flipcharts relevant to individual teacher
- Time for individual questions with instructor
- Supervised practice time
- Discuss curriculum and ways to integrate within the ActivSoftware
- Collaborate with peers and share flipcharts with them

Deliverables: One day of supervised practice in a lab setting.

Part Numbers: TRN-WS-CE1, TRN-WS-CE2 and TRN-WS-BTE

Price: \$1995 for up to 12 participants; Up to 3 additional for \$100 each. **This workshop follows any "Essentials" Class. Discount of \$500 if scheduled for the next day following the class.**

Professional Development: IMPLEMENTING STUDENT RESPONSE DEVICES (CLASS)

Participants will learn how to create unparalleled opportunities for student involvement and assessment during instruction by integrating Promethean Student Response Devices (ActiVotes or ActivExpressions) into the digital classroom. The instructor will teach many strategies and techniques to give individual students a voice while allowing the teacher to deliver dynamic lessons tailored to the immediate assessment of student learning. Participants will learn how to better involve every student in the classroom learning experience.

Step-by-step, hands-on instruction with examples, for the following and more:

- Registering devices: creating user database for named and unnamed modes
- Creating formative assessments to determine student learning and areas of needed improvement
- Scoring, displaying and exporting assessment results
- Exploring the "Wonder Wheel" to poll students using multiple questions types (ActivExpressions)
- Creating leveled assessments using the self-paced mode (ActivExpressions)

Deliverables: One day of classroom instruction and training materials.

Part Number: TRN-SRS

Price: \$1995 for up to 12 participants; Up to 3 additional for \$100 each.

ActivInstructor: TRAIN-THE-TRAINER CLASS WITH INSTRUCTOR CERTIFICATION

The Instructor's Course is available as your choice of a 3-day or 4-day professional development course. It is designed to prepare participants to re-deliver the three standard "Essentials" for the ActivClassroom. Upon successful completion, the participants will gain the necessary skills to conduct those classes. They will also come away with a Promethean Instructor Certification that is required to re-deliver those classes, but only within his or her own school district.

Step-by-step, hands-on instruction with examples, for the following and more:

- Interactive hands-on practice with software redelivery methods
- One-on-one time with instructor
- Discussion of Best Practices and ways to implement Professional Development
- Plan and create training plans (4-day course only)
- Prerequisites: Prior completion of Foundations/ Core Essentials (Part 1 and 2) and at least intermediate skill level with ActivClassroom

Deliverables: 3 or 4 days of instruction and instructor's guides.

Part Numbers: TRN-TTT3 (3 Day Course), TRN-TTT4 (4 Day Course)

Price: 3-days \$5400 (up to 8 participants) 4-days \$6900 (up to 8 participants) Up to 2 more participants for \$200 per day per additional participant.

Letters alive®

Classroom curriculum for children learning to read.

During this one day class participants will learn how to fully integrate *Letters alive* into their everyday reading instruction. Participants will get hands on practice with everything from camera set-up to building sentences. The products in the *Letters alive* Suite (*Letters alive* and Root Words) will be covered in this training. Participants are asked to bring in their equipment because this is a hands-on workshop.

Letters alive: LEARN NEW TIPS FOR LETTERS ALIVE

- Cameras set up
- Proper card placement
- Letters alive
 - Animal and Letter Modes
 - Building Sentences
- Root Words
 - Building Words and Word Families
- Curriculum Support and Integration

Target Grade Levels: Pre-K to Grade 5

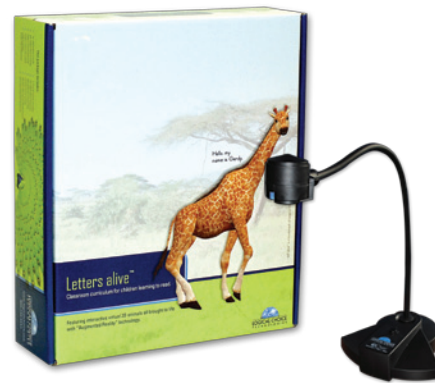

Deliverables: One day of instruction on-site.

Part Numbers: TRN-LA

Price: \$1795 for (up to 10 participants)
Customers will need to bring own *Letters alive* product, 3Cam and computer for training.

Letters alive Suite

Featuring interactive virtual 3-D animals all brought to life with "Augmented Reality" technology.

Letters alive Suite includes:

- 26 Alphabet Cards
- 94 Sight Word Cards
- 26 Alphabet Friezes
- Video Tutorial
- USB Dongle (with AR software)
- Curriculum Guide
- Daily Lesson Plans
- Neoprene Card Pad
- Quick Start Guide
- Student Activities
- 3Cam Camera
